

KIM GLOVES
COMPANY LIMITED

COMPANY INTRODUCTION

KIM GLOVES

A trusted manufacturer of
Latex disposable gloves
Examination gloves
Household gloves
Industrial gloves
in Thailand

OUR COMMITMENT

Our mission is to be a recognised leader in our business community, a trusted partner to our suppliers & our buyers, and most important is to protect human lives by delivering high quality rubber gloves for industries across various sectors.

VISION

We aim to play a pivotal role in the protection of human beings and to be a trusted partner in the business community locally and globally.

MISSION

With a strong focus on our people and partners, we will continuously improve our business operations and deliver high quality rubber gloves.

VALUE

We value partnerships and long term relationships in which we can all mutually contribute to our communities by steadily growing so we may create jobs and build a better society.

OUR HISTORY

1980s

The Kim's family were pioneers in the industrial rubber glove business and the first factory was established in South Korea, producing industrial heavy duty latex gloves.

1990s

The company expands its operations and moves its production facilities to Central Asia and the company becomes the market leader with Industrial Latex Gloves in South Korea.

2000s

Factory operations are relocated and established in Thailand under Ariss brand and Bosaeng brand for natural latex rubber access, new export markets are penetrated.

2010s

After introducing new rubber gloves for the household and food industry market, ARISS brand is recognized as a leading brand in Thailand. Capitalizing on ARISS success, KIM GLOVES leadership expands operations by purchasing a factory in Rayong, Thailand, introducing Disposable gloves production and serving over 200 clients locally and globally.

2020s

The company introduces Nitrile Gloves in 2021 and more rubber glove types by 2022. Plan to expand rubber gloves production capacity output by 30%, increase local and global footprint in new markets and move forward with organic and sustainable growth.

”

"Our company has always been at the forefront of the battle against bacteria, viruses and dangerous infections. Kim Gloves is one of very few manufacturers around the world to offer an extensive range of latex gloves. Our production facilities can produce gloves for almost every single industry you can imagine. We can make gloves that weigh six grams or 300 grams, but no matter the task, we emphasise competitive prices and high standards of quality."

WHY KIM GLOVES ?

BEST CHOICE FOR HIGH-QUALITY RUBBER GLOVES

BEST SUPPORT AND SERVICE ORIENTED TEAM

BEST VARIETY AND WIDE RANGE OF GLOVES

Our manufacturing facilities are in Rayong, Thailand, **Near Laemchabang port** with an access to a vast logistics and shipment network.

Thailand is the leading supplier of natural rubber, accounting to 40% of the world's natural rubber supply, and our products are made from the finest latex raw materials, allowing us to produce the best **high quality gloves** in the market.

We have a value chain, starting from our suppliers up to our customers and end users. We value all of our partners in trade and we are committed to fair and **ethical business practices**, led by honesty and transparency.

Our brands are leaders in the markets of South Korea and Thailand: We have around 50% of the market share in **industrial latex gloves** and Ariss brand has around 40-50% of market share in **Household & Food Handling rubber gloves** in Thailand.

We are committed to manufacturing high quality rubber gloves, adhering to the international standards that have been awarded to our factory and latex gloves, also ensuring that we deliver to our customers **consistently great quality** products and excellent service.

We choose safe raw materials by working closely with our suppliers for checking MSDS levels and we test our gloves in laboratories of certified inspection agencies, so we can produce **non-hazardous, skin safe, and food contact safe rubber gloves**.
